

Active DP To HDMI Adapter

מק"ט: CH-DP-HDMI-ACT

תיאור המוצר

Description:

TYPE: Active DP To HDMI

LENGTH: 0.2m

CONNECTORS: Male To Female

COLOR: Black

Description:

This DisplayPort 1.1 to HDMI 1.4 active adapter enables your DisplayPort supported computer to connect to an HDMI supported display. Simply connect the DisplayPort end of the connector to your computer and plug your existing HDMI cable from the display into the adapter. The adapter seamlessly converts the DisplayPort video signal into an HDMI signal for a fast plug-and-play setup. Unlike a passive adapter, the DP2HDS actively converts single mode and dual mode DisplayPort output, which is ideal for graphics cards that do not output dual mode/multi-mode (DP++) signals, such as ATI Eyefinity cards.

Features:

DisplayPort(M) to HDMI(F) Adapter/Active.

Supports resolutions up to 1920x1200.

Supported on any HDMI display including televisions and Apple Cinema Display HD.

Latching DisplayPort connector.

Compliant with DisplayPort 1.1a specifications.

Supports HDCP 1.3.

HDTV: 480i, 576i, 480p, 576p, 1080i and 1080p.

Works with video cards not capable of outputting DP++ (multi-mode) signals.

5.1 Surround Sound Audio Pass-through.

Package Includes:

1 xDP Male to HDMI Female Adapter.
