Type: Bluetooth Open-Ear Earbuds (Breeze)

Producer: Avantree Color: Black

Overview:

Breeze - Open-Ear Bluetooth 5.2 Earbuds with Surroundings Awareness

OPEN-EAR DESIGN

The Breeze's open-ear design keeps you connected and aware of your surroundings. You can walk your dog, work in the office, or get chores done, all while staying aware of your environment.

LIGHT & COMFORTABLE

Although open-ear earbuds inherently do not fit as tightly or securely as in-ear earbuds, the looser fit & lightweight build allows the Breeze to remain comfortable even after extended use.

CLEAR VOICE

The Breeze emphasizes treble & higher frequencies, which results in clearer, more pronounced voice audio. A louder maximum volume of 107dB additionally ensures you'll never miss a word.

EXTENDED PLAYTIME

One full charge provides up to 7 hours of playtime. With the charging case, you'll get a total playtime of 35 hours.

BUILT-IN CONTROLS

Physical buttons on each of the Breeze's earbuds allow you to play / pause your music, adjust the volume, skip / replay tracks, and answer / reject calls - without ever needing to touch your phone.

Specifications:

- Frequency Response 2E+4 Hz
- Headphones Jack 3.5 mm Jack
- Connectivity Technology Wireless
