

USB1.1 10/100Mb Lan Adapter

מק"ט: E-USB-LAN

תיאור המוצר

מתאם רשת USB ל-LAN המאפשר חיבור מחשב לרשת קווית באמצעות יציאת RJ45. המתאם תומך במהירויות 10Mbps ו-100Mbps עם זיהוי אוטומטי. תומך בעבודה במצב Half/Full Duplex וב-Flow Control ותואם למערכות Windows 7 ו- Windows 2000, XP, Vista (32bit).

USB1.1 10/100Mb Lan Adapter

Features:

- Single chip USB to Fast Ethernet controller RJ45 Shield phone jack
- Switch 10Mbps or 100Mbps network automatically
- Integrated Fast Ethernet MAC, physical clip and transceiver in one chip

Network Speed:10Mbps and 100Mbps N-way auto-negotiation operation
Compliant to USB interface version 1.0/1.1/2.0
Full-speed (12Mbps) USB 1.1 device (USB 1.1 Standard), can not reach 480Mbps(USB 2.0 standard)
Support all USB standard commands
Support suspend/resume detection logic
Support 4 endpoints
1 control endpoint with maximum 8-byte packet
1 bulk in endpoint with 64 bytes/packet
1 bulk out endpoint with 64 bytes/packet
1 interrupt in endpoint with 8 bytes/packet
18 bytes SRAM built in (2K bytes for Tx buffer, and 16K bytes for Rx buffer)
Use 93C46 to store resource configuration, ID parameter, etc
Half/Full duplex 10/100Mbps operation
Support Full Duplex Flow Control (IEEE 802.3x)
Support Windows 2000, XP, VISTA,WIN7 (32bit not use for 64bit)
