

USB 3.0 Gigabit Ethernet Cable

מק"ט: ST-U-981

תיאור המוצר

Description

USB 3.0 Gigabit Ethernet Adapter adds a reliable RJ-45 Ethernet port to any USB-enabled computer, delivering network speeds of up to 1000 Mbps. Powered by the advanced Realtek RTL8153B chipset, it offers lower power consumption than the previous RTL8153, making it especially well-suited for laptops, tablets, and other portable devices. Fully backward compatible with USB 2.0 systems and supporting 10/100 Mbps Ethernet networks, this compact and lightweight adapter is the perfect solution for replacing a desktop network card or enhancing mobile connectivity on the go.

Features

- Compliant with USB 3.0□USB 2.0 and USB 1.1
- Supports 10/100/1000 Mbps Ethernet
- Supports IEEE 802.1Q VLAN tagging
- Supports IEEE 802.3az (Energy Efficient Ethernet)
- Supports Full Duplex flow control (IEEE 802.3 x)
- Supports Wake-on-LAN
- Downstream port: RJ45
- Up to 9KB jumbo frames

System Requirements

Windows XP/7/8/8.1/10/11 (32/64 bit)

Mac OS 10.6 and later

Linux 2.6.27 and later

Available USB 2.0 port (Recommend USB 3.0 port)

Package Contents

1 x USB Gigabit Ethernet Adapter

1 x User Manual
