< ללא השהייה בין תמונה לשמע
< התקנה פשוטה - ללא צורך בדרייברים

Type: Bluetooth 5.0 Noise Cancelling Headphones with Detachable Mic and USB Dongle Adapter Set

Producer: Avantree

Color: Black

Overview:

Bluetooth 5.0 Noise Cancelling Headphones with Detachable Mic and USB Dongle Adapter Set

Headache-Free, Easy Set Up

The Avantree Aria 90B is a set that comes with a Bluetooth headphone and USB dongle; they are factory paired and are ready to go. No need to deal with the annoying Bluetooth pairing procedure or your PC's complex Bluetooth system, simply plug the adapter into your PC's USB port and use away. Works perfectly with Zoom, Skype for Business, Microsoft Teams, Google Meet and more.

Clear & Crisp Conversations

The Aria 90B comes with a detachable microphone that's positioned right next to your mouth, allowing the microphone to pick up your voice better while effectively blocking out the excessive noise around you. The detachable mic has a built-in mute switch that's easily reachable so you can mute yourself quickly & seamlessly without having to take your phone out of your pocket.

Stable & Reliable Signal Quality

The Avantree 90B is Class 2 Bluetooth v5.0, ensuring stable & reliable connectivity up to 33 ft (10 m) between the dongle & the headphone. Need to start making dinner or grab a drink from the fridge? No problem, move around the house and do what you need to do without worrying about the audio cutting out or breaking up.

Note: Range can be Negatively affected by physical obstacles.

Eliminate Background Distractions

Just like all other members of the Avantree Aria series, the Aria 90B features Advanced Active Noise Cancellation technology. The ANC technology can effectively reduce low frequency ambient noises such as airplane engine or city traffic by up to 90%, allowing you to hear only what you want to hear. The noise cancelling feature works under both wired and wireless modes.

Extra-Long Battery Life

The battery of the Aria Bluetooth headphones can run up to 35 hours per full charge (tested at 60% volume). Take them anywhere you like and use them however you want; the battery will last longer than you can. When you do like to recharge the headphones, any USB Type-C charger will be able to get them back to full battery level within 1.5 hours.

Works Independently, too!

Don't need the USB dongle? Want to use the Aria 90B headphones with your phone or other Bluetooth devices? No problem! The headphone is designed with precision-engineered 40mm stereo drivers, delivering powerful yet steady audio quality while ensuring a smooth & dynamic listening experience. Perfect for submerging into your favorite playlist or catching up on your saved podcasts.

Simply Comfortable

The Aria 90B Bluetooth 5.0 headphone is extremely lightweight & flexible; it comes in at 8oz (~230g) compared to the 10+ oz (290+ g) of certain big-name brands. This, combined with the soft memory foam earpads and the adjustable headband, will be able to provide you with immense comfort even after a full day of use. The headphone is built with sturdy material that'll easily withstand your daily wear & tear.
