Type: Bluetooth Headphones And Transmitter Set for TV

Producer: Avantree

Color: Black

Overview:

Our high quality Bluetooth headphones with our top-of-the-line Audikas transmitter.

Whether you use the set together or with other devices, HT4189 delivers the ultimate audio experience.

Plug & play

True to the term 'Plug & Play', our headphones and Bluetooth transmitter connects automatically once turned on - so you don't need to pair them.

Conveniently compatible

Whether you are playing games on your PC or watching your favorite show on the latest model of TV, our HT4189 offers the flexibility and compatibility with any device with optical, AUX/3.5mm or RCA audio out ports.

No more delay

Featuring low audio delay technology (<40ms latency), this set allows you to reduce Bluetooth delay- delivering high quality sound in perfect synchronization. Ideal for watching TV and movies, HT4189 can also support 2 pairs of headphones simultaneously.

Long range use

Featuring Bluetooth Class I technology, HT4189 has a working range of up to 100ft! This gives you the ability to roam freely while still maintaining the ultimate sound quality experience. Note: The working range of the HT4189 can be affected by physical or wireless interference.

Works together and apart

Our headset offers the convenience and flexibility of being used both with the included transmitter or with other Bluetooth transmitting devices - including your phone, PC or TV! The transmitter can also be paired with other Bluetooth receiving devices including other headphones or speakers in your home.

Note: Other 2.4G / RF TV headphone Sets CANNOT be used seperatly with bluetooth devices because 2.4G technology is not compatible with bluetooth.

Ultra-long play time

Unlike other headphones on the market, ours are designed for long term use. Featuring a long lasting battery with up to 40 hours of playtime, our headphones are ideal for long term use.
