

# USB Headset with Microphone

מק"ט: HYG-1000

## תיאור המוצר

Wired USB rainbow headphones with a built-in microphone and a built-in control panel on the cable. The headphones can be connected via the cable to a USB-A or USB-C socket (adapter included). The headphones are lightweight and ergonomically designed for comfort during prolonged use with soft ear cushions. The sound quality is clean and good and includes noise filtering technology. The headphones are black in color with a clean design and have a 2-meter cable, on which a control panel is built that allows you to answer / hang up a call, mute the microphone and control the volume.
