Watch TV with a family member at one's own volume

With two pairs of headphones you can watch TV together with a family member (or friend) without disturbing anyone around you.

This HT41899 set is equipped with low latency technology - this reduces the streaming delay and ensures your audio is in perfect synchronization with your TV. Enjoy watching your TV programs without any audio delay or lip sync error on EITHER pair of headphones.

Intuitive and easy to use

Truly 'Plug & Play' - just turn them on and our headphones and transmitter connect automatically. It's as simple and easy as pressing a button.

Color-coded gray and red buttons on the transmitter independently control the gray and red headphones.

Works with most TVs on the market

Whether you're watching your favorite show on your new or old TV, our HT41899 can work with your device. It's easily compatible with any TV that has an optical, AUX/3.5mm or RCA audio output port.

Wireless connect with other devices

Headphones can also be paired and used with other 'Bluetooth transmitter devices - including your phone, tablet, PC or TV! The transmitter can be used with any Bluetooth receiver devices including other headphones or speakers in your home.

Ultra-long play time

Unlike most headphones on the market, these are specifically designed for extended periods of use. With one full charge delivering up to 40 hours of use, you don't have to worry about running out of battery!

Personal TV headphones

Whether you are hard of hearing or just enjoy the full volume capacity of your favorite shows, our over the ear headset allows you full range of sound-without being constantly told to turn it down! Ideal for the hearing impaired and their families. Also, ideal for users during the evening or with children for watching TV without disturbing those asleep/napping.

Comfortable for long time wear

Both wireless over the ear headphones feature an adjustable headband allowing for the perfect fit with your own head size and the earbuds are made of skin sensitive soft protein ensuring long-term use comfort. An ideal choice for extended periods of audio streaming TV or videos.
