

# Crimping Tool With Strupper And Network Tester

מק"ט: HP-TOOL-C45-TES

## תיאור המוצר

### 2-in-1 Crimping Tool & Network Cable Tester

Streamline your installations with this all-in-one crimping tool and network cable tester – the perfect solution for technicians. Designed for crimping RJ45, RJ12, RJ11, and RJ10 connectors, this reliable tool features durable metal pliers with ergonomic plastic handles and a locking mechanism for safe storage. It includes a built-in cable cutter and stripper for added convenience.

The integrated tester, that tested the cables directly after the crimping, displays clear LED light indicators to verify connectivity for each connector type (requires 3 x LR44 batteries -not included).

### Specifications:

- suitable for crimping: RJ45, RJ12, RJ11, RJ10 Connectors
- Metal pliers with plastic handles and lock
- Built-in cutter and stripper
- The network tester shows an LED lights indication (according to each connector)
